Dear Sir:

Thank you very much for your response to our advertisement offering a free sample of our new all Mylar* Card-Lite guide. This sample along with a circular picturing the various styles is enclosed.

Our distributor will contact you and explain the advantages of this new thin, strong, card indexing guide. Here is a chance to up-date your present filing system. Special sizes are also available.

If you do not hear from our representative or need any additional information or samples, please let us know.

Our company specializes in the manufacture of loose leaf indexes and filing guides. If you have any type of a filing or finding problem, one of our products can help you.

Sincerely,

AIGNER INDEX CO., INC.
